Abstract of the Disclosure

5 A system for managing favorite channel lists on a television, personal computer  
or PC/TV convergence environment is disclosed. The favorite channel lists are  
dynamically created by a computerized system rather than manually created by a user  
who specifically identifies a set of channels to be included in the favorite channel list. In  
one embodiment of the invention, the computerized system generates a list of favorite  
channels based on a theme selected by the user. In another embodiment of the invention,  
10 the computerized system generates a list of favorite channels based on the channels most  
frequently viewed by the user.
